SUNIL SEEDARLA

QA Engineer | Automation & Manual Testing

+91-7702461216 • sunilseedarla@gmail.com • <u>Linkedin</u> • <u>Github</u> • Hyderabad, India

Summary

I am a QA Engineer with over 6 years of experience in testing web, mobile, and ERP applications across various industries such as Healthcare and E-commerce. My expertise includes both manual and automation testing, with proficiency in Agile environments. I have a strong focus on improving product quality through collaborative efforts, and I am continuously exploring DevOps practices to enhance my technical skills further

Skills

Agile · Amplitude · Apache JMeter · Appium · AWS · AWS EC2 · Braze · EC2 · E Commerce · ERP · TestNG · Jenkins · LMS · Manual Testing · Charles Proxy · Sanity Testing · Scrum · Selenium · Terraform · TestNG · TOSCA · UAT · Microservices · AB Testing · Apple iOS · Java · Mobile · webapp

Experience

Anoma Tech - Life360
Hyderabad

Test Engineer
04/2022 - Present

Life360 provides location-based services and safety solutions

- Designed and executed test cases for location tracking, alerts, messaging, and subscription workflows
- Built and maintained Appium automation scripts, improving test coverage and speeding regression cycles
- Validated in-app purchases & renewals via Apple Sandbox and Google Play Store
- Performed functional, regression, smoke, and sanity testing across devices for global rollouts
- Validated event tracking in Amplitude, debugged network calls using Charles Proxy, verified feature flag rollouts with LaunchDarkly, tested customer engagement flows in Braze, and ensured analytics and reporting accuracy in Satsig.
- Participated in Agile ceremonies, providing QA insights during planning and release discussions
- Contributed to bug bashes and beta testing (TestFlight & Google Play Beta)

TechO2
Hyderabad

Test Engineer / Scrum Master
06/2019 - 03/2022

TechO2 provides technology solutions focused on digital transformation

- Performed manual testing for course creation, user registration, payments, and notifications
- Developed Selenium automation scripts to boost regression coverage
- Conducted cross-browser and device testing for consistent user experience
- Acted as Scrum Master, facilitating sprint ceremonies and keeping delivery on track
- Coordinated with clients, CTO, and developers for requirement refinement and UAT sessions
- Authored test documentation: plans, results, and release notes

Education

GITAM University
Vizag

Bachelor of Commerce
08/2016 - 05/2019

Key Achievements

Release Confidence Boost
Improved release confidence by integrating Appium test, significantly enhancing testing efficiency

Cycle Time Reduction
Reduced regression cycle time for TechO2 by introducing automation for critical flows

Defect Identification Recognition
Recognized for early identification of critical defects, ensuring stable releases and increasing client trust
